- B. Four categories of sign illumination are permitted, according to Table 8-1 and Table 8-2:

 - 2. Internal. The sign face or portion thereof is made of translucent material with internal lights. This category is divided into 100% internal, which allows up to 100% of the sign face to be internally illuminated; and 50% internal, which allow up to 50% of the sign face to be internally illuminated.
 - 3. Back Lighted. (Also referred to as reverse channel.) The letters on a sign face are raised beyond the sign's background and the light source illuminates the background. The light source shall be concealed so that only the background is illuminated.

4. Spot Lighted. The sign is lighted by an external light source specifically directed at the sign. Spot-lighted signs shall be limited to not more than 2 shielded light fixtures per side. The sign base and/or proposed landscaping shall be designed to completely shield the light and light source from any public right-of-way and adjoining property,

Unless freestanding signs on adjoining properties are combined into one structure, separation of 100 feet is encouraged when practical.
- C. Sharing of Sign Structures. Uses on adjoining properties may place their freestanding sign on a single sign structure provided the sign face area for the combined signs does not exceed one hundred percent (100%) of the sign face for the use if erected separately.
- D. Freestanding signs are encourage to be located near the vehicle access point on the premises. Freestanding signs may be placed on either side of the vehicle access point on the premises, subject to setback requirements of Sections 8:6.3(A) and 6:8; or may be placed in a median in the vehicle access point on the premises if such median is curbed, provides a landscaped area on all sides of the sign, and is appropriately landscaped.
- E. The thickness of back-to-back signs shall not exceed thirty (30) inches. V-type signs shall not exceed an angle greater than ninety (90) degrees.
- F. Height of freestanding signs shall be measured from the elevation of the street adjacent to the sign, or from the average post-development elevation of the ground within a 10 foot radius surrounding the sign, whichever is higher. The certificate of occupancy shall be issued within five days after the erection, move, or structural alteration of any building or change in the use of any premises shall have been completed in conformity with the provisions of this ordinance.

9:3.3 Temporary Certificate of Occupancy

A temporary certificate of occupancy may be issued by the building inspector for a period not exceeding six months during alterations or partial occupancy of a building pending the completion, or for bazaars, carnivals, and such; provided that such temporary permit may require such conditions and safeguards as will protect the safety of the occupants and the general public.

9:3.3 Failure to Obtain Certificate of Occupancy

Failure to obtain a certificate of occupancy shall be a violation of this ordinance and punishable under Article 14 of this ordinance.

Section 9:4 Construction and Use to be as Provided in Application, Plans, Permits and Certificates

Zoning certificates or certificates of occupancy issued on the basis of plans and applications approved by the building inspector authorize only the use, arrangement, and construction set forth in such approved plans and applications. Use, arrangement, or construction that differs from that authorized shall be deemed a violation of the ordinance and punishable as provided by Article 14 of this ordinance.

Section 9:5 Right of Appeal

If the request for a zoning certificate is disapproved or if a certificate of occupancy is denied, the applicant may appeal the action of the building inspector to the Board of Zoning Appeals.

Section 9:6 Temporary Approval, Pending Application for a Zoning Change, Variance, or Use Permitted on Review

9:6.1 Issuance of Temporary Certificate

Whenever any inspector, administrator, or other officer whose duties are regulated by this article shall find that a newly commenced business operation is not in technical compliance with the zoning ordinance, but he is advised that the owner or operator has filed an application for a zoning change, variance, or use permitted on review which, if granted, would bring the business operation into compliance, then the official shall grant a temporary certificate. Such temporary certificate shall have the same force and effect as a regularly issued certificate until final action on the application by the city commission, committee, board, or council.

9:6.2 Zoning Districts Affected

Temporary certificates may be granted only for commercial, industrial, and service districts. No temporary certificate shall be granted for any district with a residential classification.

9:6.3 Required Findings for Issuance

No temporary certificate shall be granted without the appropriate official first finding:

- A. The building is reasonably suited by design for its proposed use.
- B. Proposed use is compatible with uses made by adjoining properties and the proposed use will not adversely affect the character of the neighborhood in which the property is located.

9:6.4 Owner/Operator Proceeds at Own Risk

Any owner or operator who requests the issuance of such a temporary certificate, and who proceeds with doing business, does so at his own risk. Such owner or operator is still responsible in the same way as any other applicant to establish a need for a change, variance, or use permitted on review. The fact that the temporary certificate has been issued is not a grounds for establishing a need for the change, variance, or use permitted on review; nor shall such fact in any way be deemed to be detrimental reliance by the owner or operator.

Article 10 BOARD OF ZONING APPEALS

Section 10:1 Establishment of Board of Zoning Appeals

A Board of Zoning Appeals is hereby created with the powers and duties set forth below.

Section 10:2 Membership

The Board of Zoning Appeals shall be composed of five members. Each member is appointed for a three-year term provided that the City Council, in the appointment of the original members of the Board or in filling vacancies caused by the expiration of the terms of existing members of any such Board, may make appointments of certain members for less than three years to the end that thereafter the terms of all members shall not expire at the same time. The City Council may, at its discretion, appoint not more than two alternate members to serve on such Board in the absence, for any cause, of any regular members. Such alternate member or members shall be appointed in the same manner as regular members and at the regular times for appointment. Each alternate member, while attending any regular or special meeting of the Board and serving in the absence of any regular member, shall have and exercise all the powers and duties of such regular members so absent. The members of the Board shall have initial terms of office as follows: one member appointed for a term of one year; two members appointed for terms of two years; and two members appointed for terms of three years. At completion of the initial term of office for each member, all additional appointments to vacancies of the Board shall be for three year terms. Vacancies shall be filled for the unexpired term only. Members shall be removed for cause by a majority vote of the total membership of the City Council upon written charges and after public hearing.

Section 10:3 Proceedings

The Board of Zoning Appeals shall draw up and adopt rules governing the conduct of the affairs which are in keeping with the provisions of this ordinance. The rules shall provide and require the following in addition to other rules and regulations the Board shall adopt.

10:3.1 Officials

At the first meeting after its establishment, the Board shall elect a chairman, a vice-chairman, and such other officers as necessary from among the members. Such officers shall serve one-year terms and may succeed themselves. The chairman, or in his absence, the vice-chairman, shall preside at all meetings, may administer oaths, and compel the attendance or witnesses.

10:3.2 Meetings

Meetings of the Board shall be held at the call of the chairman and at such other times as the Board may determine. Due notice shall be given to all parties in interest. All meetings of the Board shall be open to the public and all evidence and testimony shall be presented publicly.

10:3.3 Minutes of Proceedings

The Board shall keep minutes of its proceedings showing the vote of each member upon every question or his absence or failure to vote, indicating such fact, and also keep records of its examinations, findings, determinations, any other official action. No final action shall be taken unless a majority of the total membership of the Board is present.

Section 10:4 Appeals and Hearings

Appeals to the Board of Zoning Appeals concerning interpretation or administration of this ordinance may be taken by any person aggrieved or by any officer, department, board, or bureau of the city. Such appeal shall be taken within such time as shall be prescribed by the Board of Zoning Appeals by general rule, by filing with the officer from whom the appeal is taken and with the Board a notice of appeal, specifying the grounds. The officer from whom the appeal is taken shall forthwith transmit to the Board all the papers constituting the record upon which the action appealed from was taken. An appeal stays all proceedings in furtherance of the action appealed from, unless the officer from whom the appeal is taken certifies to the Board, after notice of appeal shall have been filed with him, that by reason of facts stated in the certificate, a stay would, in his opinion, cause imminent peril to life or property. In which case, proceedings shall not be stayed otherwise than by a restraining order which may be granted by the Board or by a court of record on application on notice to the officer from whom the appeal is taken and on due cause shown. The Board of Zoning Appeals shall fix a reasonable time for hearing the appeal, give due notice of hearing to the parties concerned, and decide the same within a reasonable time. At the hearing, any party may appear in person, by agent, or by attorney. The Board may reverse or affirm, wholly or partly, or may modify the order, requirement, decision, or determination appealed from; and shall make such order, requirement, decision, or determination as in its opinion ought to be made on the premises, and to that end shall have all the powers of the officer from whom the appeal is taken.

Section 10:5 Powers and Duties

The Board of Zoning Appeals shall have the following powers and duties.

10:5.1 Review

The Board shall hear and decide appeals where it is alleged there is error in any order, requirement, decision, or determination made by the building inspector in the enforcement of this ordinance.

10:5.2 Variances

The Board of Zoning Appeals may authorize upon written appeal in specific cases such variance from the terms of this ordinance as will not be contrary to the public interest, where owing to special conditions, a literal enforcement of the provisions of this ordinance would result in unnecessary hardship or peculiar and exceptional practical difficulties.

Before action is taken on a request for a variance, the Board of Zoning Appeals shall hold one or more public hearings at which any party may appear in person, by agent, or by attorney.

One notice of a public hearing shall be published in a newspaper of general circulation in the community at least fifteen (15) days prior to the hearing. The notice shall list the date, time and place of the hearing, and shall include a brief description of the application(s) being reviewed. The owner of the property for which the variance is requested or his agent shall be notified by mail. A variance from the terms of this ordinance may be granted by the Board of Zoning Appeals upon finding that:

- A. There are special conditions and circumstances which are peculiar to the land, structure, or building involved which are not applicable to other lands, structures, or buildings in the same district.
- B. A literal interpretation of the provisions of this ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this ordinance.
- C. The special conditions and circumstances do not result from the actions of the applicant.
- D. Granting the variance requested will not confer on the applicant any special privilege that is denied by this ordinance to other lands, structures, or buildings in the same district.

- E. The variance requested will be in harmony with the general purpose and intent of this ordinance and will not be injurious to the neighborhood, or otherwise detrimental to the public welfare.
- F. The variance requested is the minimum variance that will make possible the legal use of the land, building, or structure.

No nonconforming use of neighboring lands, structures, or buildings in the same district and no permitted or nonconforming use of lands, structures, or buildings in other districts shall be considered grounds for the issuance of a variance.

UNDER NO CIRCUMSTANCES SHALL THE BOARD GRANT A VARIANCE TO ALLOW A USE NOT PERMISSIBLE UNDER THE TERMS OF THIS ORDINANCE IN THE DISTRICT INVOLVED.

10:5.3 Uses Permitted By Special Exception

The Board of Zoning Appeals may hear and decide upon Uses Permitted on Review specifically authorized by the terms of this ordinance. A use permitted on review shall not be authorized by the Board of Zoning Appeals unless and until:

- A. A written application is submitted.
- B. Notice shall be appearing at least 15 days in advance of a public hearing.
- C. A public hearing shall be held.
- D. The Board shall make findings.
- E. The Board shall make written findings certifying compliance with the regulations governing the special use.

10:5.4 Additional Power

In addition to the powers conferred upon the Board of Zoning Appeals, the Board shall have authority to interpret district boundaries where boundaries on the ground are at variance with those shown on the Official Zoning Map.

In granting any variance, the Board of Zoning Appeals may prescribe appropriate conditions and safeguards in conformity with this ordinance. Violation of such conditions and safeguards shall be a violation of this ordinance and punishable under Article 14.

UNDER NO CIRCUMSTANCES SHALL THE BOARD GRANT A VARIANCE TO ALLOW A USE NOT PERMISSIBLE UNDER THE TERMS OF THIS ORDINANCE, OR ANY USE EXPRESSLY OR BY IMPLICATION PROHIBITED BY THE TERMS OF THIS ORDINANCE IN THE DISTRICT INVOLVED.

Section 10:6 Decisions

The concurring vote of four members of the Board of Zoning Appeals shall be necessary to reverse any order, requirement, decision, or determination of the building inspector charged with the enforcement of this ordinance; or to decide in favor of the applicant any matter upon which it is required to pass under this ordinance; or to grant a variance from the provisions of this ordinance.

Section 10:7 Appeals

Every decision of the Board of Zoning Appeals shall be subject to review by a court of record in the manner provided by the laws of the State of South Carolina and particularly by The South Carolina Local Government Comprehensive Planning Enabling Act of 1994, S. C. Code Title 6, Chapter 29.

Section 10:8 Fee

A fee of \$100.00 shall be paid to the Zoning Administrator for each application for a variance, use permitted by special exception, interpretation or appeal to cover the necessary administrative costs.

Section 10:9 Duties of Administrative Official, Board of Zoning Appeals, City Council, and Courts on Matters of Appeals

It is the intent of this ordinance that all questions of interpretation and enforcement shall first be presented to the building inspector. Such questions shall be presented to the Board of Zoning Appeals only on appeal from the decision of the building inspector and that recourse from the decision of the Board of Zoning Appeals shall be to the circuit Court and the Supreme Court of the State of South Carolina and particularly by Act Number 487, Acts of 1967. It is further the intent of this ordinance that the duties of the City Council in connection with this ordinance shall not include hearing and deciding questions of interpretation and enforcement that may arise. The procedure for deciding such questions shall be as stated in this section and this ordinance. Under this ordinance, the City Council shall have only the duty of considering, adopting, or rejecting proposed amendments or the repeal of this ordinance as provided by law.

ARTICLE 11 AMENDMENTS

The regulations, restrictions, and boundaries set forth in this ordinance may from time to time be amended, supplemented, changed, or repealed by the City Council after study by the Planning Commission and in accordance with the following procedures:

Section 11:1 Action by the Applicant

The following action shall be taken by the applicant for an amendment to this ordinance.

11:1.1 Initiation of Amendment

Proposed changes or amendments may be initiated by the City Council, Planning Commission, and in accordance with the following procedures.

11:1.2 Application

An application for any change or amendment shall contain a description and/or statement of the present and proposed zoning regulation or district boundary to be changed, and the names and addresses of the owner or owners of the property. Such application shall be filed with the City Planning staff not later than 35 days prior to the Planning Commission meeting at which the application is to be considered.

11:1.3 Fee

When a proposed amendment is initiated by an individual or parties other than the City Council, Planning Commission, or Board of Zoning Appeals, a fee of \$100.00 shall be paid to the City Clerk for each application for administrative expenses involved. The \$100.00 fee for annexations has been waived.

Section 11:2 Action by the Planning Commission

11:2.1 Consideration by the Planning Commission

The Planning Commission shall consider the proposed zoning amendments four times per year. These times are in the months of March, June, September, and December at a public hearing conducted in accordance with Section 10:2.2. The Planning Commission may also consider proposed zoning amendments at such other times as the Commission Chairman or City Council may direct.

11:2.2 Notice of Hearing

- a. One notice of a public hearing shall be published in a newspaper of general circulation in the community at least fifteen (15) days prior to the hearing. The notice shall list the date, time, and place of the hearing, and shall include a brief description of the application(s) being reviewed.
- b. In rezoning cases, a property under application shall be posted at least ten days prior to the public hearing with conspicuous notices on or adjacent to the property. One notice shall be visible from each public street that borders the property.
- c. The agenda for a public hearing shall be posted at City Hall at least twenty-four (24) hours prior to the hearing.

11:2.3 Action by the Planning Commission

In conjunction with its public hearing, the Planning Commission shall consider the recommendations of the Greer City Planning Commission staff as well as other factors and make written recommendations to the City Council concerning each proposed zoning amendment.

Section 11:3 Action by City Council

11:3.1 City Council Consideration

The City Council may consider proposed zoning amendments at any meeting of Council provided however that no proposed zoning amendment shall be adopted by the Council until after public notice and hearing as provided for in Section 11:2.2.

11:3.2 Consideration of Planning Commission Recommendation

Prior to acting on any proposed zoning amendment, City Council shall consider the recommendation of the Planning Commission. If the Planning Commission recommends denial of a proposed zoning amendment, the City Council may reject the Planning Commission's recommendation only by a vote of two-thirds of the members of Council who are present and voting. If no recommendation is received from the Planning Commission within 30 days from the date of the public hearing, it shall be deemed to have approved the proposed amendment.

11:3.3 Protest

When the Planning Commission has recommended approval of a proposed zoning amendment, in case of a protest against such amendment signed by the owners of 20 percent or more of the lots included in the proposed change, or of those immediately adjacent to, in the rear, or on either side extending 100 feet or of those directly opposite extending 100 feet from the street frontage of such opposite lot, any amendment shall not become effective except by a favorable vote of three-fourths of all the members of Council.

No protest petition shall be valid unless it is (1) written, (2) bears the actual signatures of the requisite number of property owners and states that they protest the proposed amendment, and (3) is received by the building inspector in time to allow at least two normal work days (excluding weekends and legal holidays) prior to the public hearing on the amendment, so as to allow time for municipal personnel to check the accuracy and sufficiency of the petition.

11:3.4 Reconsideration of Request for Amendment

When the City Council shall have denied a request for an amendment, it shall not consider another request for an amendment affecting the same property until one year from the date of the previous denial.

Whenever a violation of this ordinance occurs or is alleged to have occurred, any person may file a written complaint. Such complaint stating fully the causes and basis of the alleged violation shall be filed with the Zoning Administrator. He shall record properly the complaint, immediately investigate, and take action as provided by this ordinance.
