1. The owner has requested that the zoning classification of his property be changed from R-12 (Single Family Residential District) to RM-1 (Multi-Family Residential District) and has shown the need for such change in use to the Greer Planning Commission at a public hearing held on June 22, 2020 which has recommended to Council that the zoning change be approved;

**ANALYSIS:** RZ 20-38

RZ 20-38 is a rezoning request for a parcel located at 531 Abner Creek Rd. The request is to rezone the parcel from R-12, Single Family Residential to R-M1, Multi-Family Residential. The property was rezoned to R-12, Single Family Residential in 2019 and going to be combined with a portion of the property to the north for a future subdivision development that was known as Dillard Grove Villas. The developer of this project had issues with hitting rock and abandoned the project. This property is being proposed to be combined with property to the north for a future proposed multi-family project.

Surrounding land uses and zoning include:

| North: | R-12, Single Family Residential (proposed rezoning to R-M1) and DRD, Design Review District – The Ledges (Multi-Family single story apartments) |
| East:  | R-15, Single Family Residential, R-S, Residential Suburban - Occupied (City of Greer) and Unzoned - Occupied-Spartanburg County |
| South: | R-15, Single Family Residential and C-3, Commercial – Village at Pelham (City of Greer) |
| West:  | C-2, Commercial District – Vacant (City of Greer) and Unzoned –Outside Inn and GOS (Spartanburg County) |

The land use map in the Comprehensive Plan defines the area surrounding this property as being located within an Employment Center, these centers serve as locations for employment in the community. The types of employment centers can range from retail uses to manufacturing uses. The intent of these centers is to provide employment opportunities for city residents as well as for people who may commute to these locations for work. Employment centers can also range in scale from single use buildings to large mixed use buildings to multiple-building complexes possibly containing office, commercial, service, warehousing and industrial uses. In addition to providing employment and shopping opportunities, employment centers can also include living possibilities as well. Supportive uses such as recreational, educational, and other public uses can be found in employment centers as well. Therefore most of the city’s zoning district allowed land uses are permitted. Design standards may come into play when typical incompatible land uses are in close proximity to one another. The land use balance is about 10% residential and 90% nonresidential.

In accordance with the guidelines set forth in this plan and after a detailed study of the area, Staff can support the proposed rezoning request.
